RESURRECTION

RANGED SPELLONCE PER LEVEL

Target: One creature

Special: You can cast this spell only once per level, and a limited number of times in your life. You must have most of the corpse available to cast the spell. There's no time limit on resurrecting a dead PC, so long as you have the corpse.

EFFECT

You can bring a creature back to life in more or less normal condition, with varying levels of *recovery*.

LIMITED RESURRECTION

If the target of your resurrection spell has been resurrected more times than you have cast the spell, there is a 50% chance that the experience will play out using their higher number of resurrections instead of the number of times you have cast the spell.

9th LEVEL SPELLLEARNED

You no longer need to have most of the corpse to perform this spell.

CLERIC SPELL LEVEL 7

RESURRECTION

SPELL USED

ONCE PER LEVEL

LIMITED CASTING

1st casting: You can cast it with a single standard action. Using the spell removes one of your spell slots until you gain a level. (one less spell per full heal-up.) The person you are resurrecting comes back at roughly half strength, e.g. expending half their *recoveries*, being *dazed* (save ends), and, for each ability, having a 50% chance that it is expended.

2nd casting: It takes at least three or four rounds and costs you roughly half your hit points and daily powers/spells. The person you are resurrecting comes back at something like one-quarter strength.

3rd casting: it has to be as a ritual. The spell chews you up and leaves you with only a few hit points, then gnaws at the person you have resurrected, who takes days to recover well enough to qualify as an adventurer or combatant.

4th casting: It nearly kills you. The resurrection succeeds but the person you've resurrected is going to be a mess for a month or more, regardless of any other magic you use.

5th casting: that's the end of your story and you die. There's only a 50% chance that the resurrection spell works on the target. You've used up your quota of resurrection magic. You're not coming back via this spell, either.

CLERIC SPELL LEVEL 9

Special: You can use this spell twice per battle.

Quick action to cast (one per round)

Target: You or one ally you are next to

EFFECT

The target can *heal using a recovery*.

ADVENTURER FEATLEARNED

The target can now be a nearby ally instead of an ally you are next to.

CHAMPION FEATLEARNED

EPIC FEATLEARNED

When you cast *heal* on an ally you are next to, that ally adds +30 hp to the *recovery*.

CLERIC CLASS FEATURE

HEAL

SPELL USED

TWICE PER BATTLE

CLERIC CLASS FEATURES

HEAL

See separate heal class feature card for more details.

All clerics receive a bonus spell: *heal*.

The *heal* bonus spell is like your chosen spells, but it's also different. You always have *heal* available after each battle, and it doesn't fill one of your normal spell slots. You can think of it as having its own slot that it's always in. The slots listed on your advancement chart are for your other spells.

RITUAL MAGIC

Clerics can cast their spells as rituals see page 192

All clerics have the Ritual Magic class feature.

CLERIC CLASS FEATURES

CAST FOR POWER OR FOR BROAD EFFECT

The spell can be used one of two ways — either as a more powerful effect on one target (power) or as a weaker effect on multiple targets (broad). Spells cast for power cannot target the caster. Spells cast for broad effect can.

FREE RECOVERY

The cleric can recover hit points as if they were using a *recovery* (without actually spending the *recovery*).

HEAL USING A RECOVERY

The character targeted with a healing effect uses one of their *recoveries* and rolls their own *recovery dice*.

INVOCATION

A quick action that offers advantages in battle. It can be made once a day. More than one cleric in a party cannot use the same invocation during a battle.

CLERIC CLASS FEATURE

RITUAL MAGIC

TO CAST A SPELL AS A RITUAL:

- Choose the spell that will be used and expended by the ritual.
- Tell the GM what you are trying to accomplish and gather necessary ingredients for the ritual.
- Spend 1d4 minutes, quarter-hours, or hours (as determined by the GM) preparing and casting the ritual. You can't cast other spells during this period. A PC taking damage won't necessarily end the ritual, but it will be ruined if a character falls unconscious or launches an attack of their own.
- Make a skill check using one of your magical backgrounds and the ability score the GM deems appropriate. Use the standard DC targets (or a special DC set by the GM), depending on your tier and the results you're hoping for. The higher the level of the spell consumed by the ritual, the greater the effect.

CLERIC CLASS FEATURE

RITUAL CASTING RESULTS

DETERMINING RESULTS

Choose outcomes that are outgrowths of the spell's normal effects. The effects don't have to play within the usual constraints of the magic system, and they don't have to be taken as a precedent for future rituals.

FAILURE SHOULD FAIL FORWARD

As usual, use the fail forward mechanic.

See page 42 and 192

RITUALS EXPEND THE SPELL

No matter the outcome, the spell is expended until your next full heal-up.

CLERIC SPELL PROGRESSION	
SPELL PROGRESSION	
<ul style="list-style-type: none">There are five spell levels: 1, 3, 5, 7, and 9. The levels correspond to the character level at which you gain access to those spells for the first time.You know all of the spells in the rulebook for your class.You have a certain number of “spell slots” you can use. The number of spell slots you have of each level is listed on the spell progression table. These numbers are NOT cumulative. You do lose your lower-level slots as you level up. You’re expected to put lower-level spells in higher-level slots.After a full heal-up, you fill up your spell slots with spells that you know. Any spell you know can be chosen (only once unless stated otherwise) to fill a slot of its level or a higher level.A spell’s effect is based on the level of the slot you put it in. The level of the slot you choose for a spell does not affect your attack rolls with that spell — in other words, you always add your level to your attack rolls, not the level of the spell.Unlike weapon attacks, spell damage does NOT improve just because you level up.You must actually put the spell in a higher-level slot to get the damage increase listed for the higher-level spell. The ability score modifier added to damage does increase to double at level 5 and to triple at level 8 even if you are casting a spell that happens to be lower level than 5th/8th, but that’s it (not including wizards). The feats you’ve taken for a spell apply to the spell regardless of the spell slot you choose for it.
